

Innovative Products. Green Solutions.

Roberts takes its environmental responsibilities very seriously. Roberts is an industry leader and produced its first solvent-free adhesive in the 1980's. Since then, our corporate goal has continued to be to minimize the environmental impact of our products by continuously improving product technologies, manufacturing and distribution methods.

The Higher Standard for Indoor Air Quality

With the ongoing concern for the quality of our indoor air, Roberts continues to strive for the lowest volatile organic compound (VOC) adhesives.

Using scientifically established standards, the Green Label Plus program represents the most stringent criteria for low chemical emissions. The testing methodology was developed in cooperation with the U.S. Environmental Protection Agency and has been adopted by the American Society for Testing and Materials (ASTM) as D5116.

When you select one of the following Roberts Brand Adhesives, you will be assured that you are using a Green Label Plus Certified Product.

- **Vinyl Composition Tile Adhesive: 2057**
- **Carpet Tile Adhesive: 2077**
- **Indoor/Outdoor Carpet Adhesive: 6700**
- **Carpet & Sheet Vinyl Adhesive: 3000, 3085, MAX 3200, MAX 3300**

LEED Qualified Adhesives

When you purchase a Roberts LEED listed product you are selecting an adhesive that qualifies as a Low VOC emitting material (Low-Emitting Materials: Adhesives & Sealants as defined in EQ Credit 4.1. LEED). Each of these products will contribute one point in the LEED rating system as outlined in the U.S. Green Building Rating System for New Construction and Major Renovations Version 2.2 by complying with the South Coast Air Quality Management District (SCAQMD) Rule 1168.

The following are the Roberts LEED listed adhesives:
